Did You Know We Can Help You Budget Without The Hassle Of Switching Your Bank Checking Account Over?

It happens. Occasionally we become so inundated with unplanned issues and day-to-day responsibilities that it's a challenge to get those bills taken care of or your finances in order. Even worse, there's that temptation to procrastinate. Audubon FCU has an intriguing checking account option to help you reach your goals and simplify your life.

It's our Bill Account*. Gather up those bills you dread sitting down to pay and come on over. We'll determine how much is needed a month to pay them. You'll have that part of your check automatically deposited into the bill account and set the bills up to come out automatically. Now they just get taken care of and you can sit down and look the account over when you have the time.

That bank account... well it's now your general fund for groceries, gas, entertainment all those things you would cut back on if needed. Doesn't the thought already make you feel less stressed? And to make the deal sweeter, if you ever need a loan with us, or want to refinance with us, when you set that payment to come out automatically, we'll take a quarter percent off your loan rate.

If after one year, you're not happy with this Bill Account, we'll pay you \$50 when you close it out.

*The Bill Account must have automatic payroll deposit to cover bills and at least 4 bills automatically drafting out for 12 months without overdrafts. This offer is available until June 29, 2018.

Did you know you might be able to save more money with **Audubon's Premier Checking** than you can with money in a bank savings account?

The standard savings account at most banks have a .01%APY* while Audubon's Premier Checking offers a .50%APY*.

How does that translate for you? Let's say you have \$5,000 in a savings account paying that .01%APY*. In a year, you would earn .50 cents in interest. At Audubon, that same money will net you \$25.06. Doesn't \$25.06 sound better than .50 cents? Makes you wonder where that \$24.56 went, doesn't it?

*Annual Percentage Yield.
